Seats, Small Animal Harness, Leashes and Collars, Concealed Gun Holsters, Nylon Webbing Tow Ropes, Rifle Slings, Caps, Cushions, Boots, Shoes, Luggage, Handbags, Travel ware accessories, and other Tubular and Curved works etc...

The KINGLEAD Cylinder Arm Leather Sewing Machine is capable of sewing leather, webbing, or denim, with up to #207 bonded nylon or polyester thread, The machine has a 10 1/2 inch long cylinder arm (a.k.a: free arm) and uses the same multitudinous and inexpensive needles and presser feet and most other walking foot machines. The throat cover plate is cut off close to the left end of the arm, allowing you to sew gussets and other projects that have narrow flanges. You can let shaped items hang down and sew along the back, very close to the edge, The features a forward and reverse stitch length lever, which you pull down to back tack to lock your stitches. The positive compound feed is performed by a combination of a bottom feed dog, timed with a moving needle and moving inside presser foot.

This machine is specially designed for luggage manufacturing cylindrical thick flat sewing machine, solid structure, modelling is novel. Adopts sliding bar pick line, constitute a double lock stitch, upper and lower shaft with synchronous toothed belt transmission. Presser foot, feed dog, needle feed and lever type stitch regulator. High voltage foot pieces, high pressure foot clearance and stitch length cooperate with cylindrical seaming machine. Is suitable for sewing heavy bags, luggage, mattresses, especially suitable for the bags around.
